

There are a total of 6 poly houses and they are being used for conducting experiential learning courses of final year B.Sc (Hons) Ag students. Of these 4 polyhouses are about 300 m² and two have an area of 500 m². The two naturally ventilated polyhouses having 510 m² area each and one hardening unit having an area of 70 m² were established as part of ICAR funded project- Experiential Learning Unit- Setting up of Facilities for Entrepreneurship. Drip fertigation system and summer cooling system have been established in the poly houses.
