[Home](#) > Programs

The College of Padannakkad was established with the main focus of addressing Agri-related issues of Malabar region, Kasargod and Kannur, in particular. The college offers to strengthen specialist scientific skills in strategically important areas of all aspects of farming and supports the agricultural industry, looking at a range of highly important subjects such as sustainability, environmental management and technology.

The institution presently offers under-graduate (B.Sc. Hons. Ag.) degree, post-graduate and PhD programs. Student intake is based on a common entrance test conducted by the Government of India (NEET) and regulated by KEAM.

UNDERGRADUATE PROGRAM

An undergraduate degree from the CoAP is more than just a qualification. Our courses will provide students with a fulfilling college experience and opportunities that will help them grow academically and personally. Many of our undergraduate programmes offer experiential learning modules and opportunities for work placements. The current student intake is 100 and current student strength is 259. The students include a fair share of out-of-state candidates as well, nominated by the Indian Council of Agricultural Research, the Andaman and Nicobar Islands and Lakshadweep.

POST GRADUATE PROGRAM

A postgraduate degree is the perfect opportunity to refine subject knowledge and improve job prospects. CoAP offers a range of MSc courses in Agriculture. The departments of Agronomy, Horticulture, Agricultural Chemistry & Soil Science, Agricultural Entomology, Plant Biotechnology and Plant Pathology are the departments that offer Post-graduate programs in this college.
